

**Making your trades
apprenticeship a virtual reality.**

**TRADE SELECT
VIRTUAL REALITY**

A safe, immersive and fun way for secondary students to get a feel for a hands-on career in trades without leaving the classroom...

Introducing **Trade Select VR**, a program developed by MIGAS Apprentices & Trainees and Work Window to inspire more teens into trades via an apprenticeship pathway.

Through an immersive virtual reality and video based experience, students will hear from real employers, tour a real worksite and take part in a simulated job interview.

Students will step into the shoes of a Fitter & Turner, Carpenter or Sheet Metal Apprentice as if it's their first day on the job.

How it Works

- Delivered in class, at your school campus.
- Ideal for 20 students per group.
- 1 hour facilitated VR experience and careers presentation.
- Designed for students In years 10-12 undertaking engineering and trades curriculum.

**1 HOUR CAREERS
SESSION**

**GROUPS OF 20
STUDENTS**

**SAFE &
INTERACTIVE**

Inclusions

- Expert facilitator
- VR headsets supplied
- Engineered Careers presentation
- Tailored careers advice
